Sub: Adjustment of Futures and Options Contracts in the Security HDFC ASSET MANAGEMENT COMPANY LIMITED (HDFCAMC)

In pursuance of Byelaws of NSE Clearing pertaining to Clearing and Settlement of deals, SEBI circular reference SMDRP/DC/CIR-8/01 dated June 21, 2001, Circular no. 53 (Download no. NCL/CMPT/67750) dated April 29, 2025 and Circular no. 185/2025 (Download no. 71104) dated November 03, 2025 members are hereby informed the procedure for adjustment of Futures and Options contracts in the underlying security HDFC ASSET MANAGEMENT COMPANY LIMITED, on account of Bonus Issue in the ratio of 1:1.

The 'adjustment factor' for the corporate action shall be 2 and the ex-date for the corporate action shall be November 26, 2025. The following action will be taken by NSE Clearing in this regard.

1. Action by the NSE Clearing in respect of Futures Contracts:

The positions in the contracts expiring on 25-Nov-2025 shall not be adjusted. All open positions in futures contracts with the underlying security as HDFCAMC existing after End of day on November 25, 2025, will be adjusted as under:

Positions: The adjusted positions shall be arrived at by multiplying the number of contracts in the pre adjusted position by the adjusted market lot. The adjusted market lot shall be as per Circular no. 185/2025 (Download no. 71104) dated November 03, 2025.

Futures Price: The adjusted futures price would be based on the Settlement price of the relevant futures contracts on November 25, 2025. Adjusted futures price shall be settlement price of relevant futures contracts on November 25, 2025, divided by 'adjustment factor'.

Adjusted value: In order to avoid difference arising due to rounding off of adjusted settlement price, the carry forward/adjusted value shall be computed by multiplying pre adjusted futures long/short quantity with pre adjusted settlement price. Accordingly, all positions in futures contracts with the underlying security as HDFCAMC would be marked-to-market on November 25, 2025, based on the daily settlement

price of the respective futures contract. Further, the adjusted positions would be carried forward at the adjusted value.

From November 26, 2025, daily mark to market settlement of futures contracts with the underlying security as HDFCAMC would continue as per normal procedures.

Begin-of-day margins on November 26, 2025, would be computed for the futures contract with underlying as HDFCAMC based on the adjusted carry forward value. Subsequently, intra-day margins would be computed based on the relevant traded prices at the time the intra-day span risk parameter files are generated.

An example of adjustment of futures contract is detailed hereunder:

2 Action by Clearing Corporation in respect of Options Contracts:
